

Back to Basics

Six years ago our family started making our own soap as an alternative to the commercial mass market soaps so harsh to our skin. Our bars lasted longer, and the lather was fuller and gentler. As we gave our soaps as gifts, our friends constantly inquired how soon we would be making more. They raved of their skin being smoother and softer from the moisturizing quality of our soaps. Before we knew it, we had a soap business operating out of our cozy log home. We trust you will enjoy our products. In choosing to use our soaps, you are making a small step back to basics.

Michelle & David Homchuck

We offer a variety of soaps we were unable to describe in detail in this pamphlet. Below you will find a list of fragrances and lip balms available from CCSOaps.

Soaps

Vanilla Cinnamon
Peppermint Palm
Spearment
Oatmeal
Lemon Bar

Made in Guilford, Maine

Peppermint Palm

This one smells good enough to eat! It is made with all natural Coconut, Canola, Olive and Palm Oils. We scented it with a blend of peppermint and cream of coconut fragrance oils. The result is a wonderful creamy bar reminiscent of a refreshing chocolate mint.
\$3.00 per bar

Spearmint

This creamy, off-white colored bar has an energizing and uplifting scent. It is rich with palm, coconut, and olive oils, which combine to create a wonderful lather, gentle to your skin. We scented this soap with spearmint essential oils, steam distilled from the leaves themselves.

Vanilla Cinnamon

Swirled with cinnamon and scented with a hint of vanilla, this soap has proved to be one of our most popular bars. Coconut and olive oils provide the base for this soap. Castor oil was added to provide this refreshing soap with a mild yet stable and creamy lather.

Oatmeal Bar

We carefully selected a variety of all natural oils to create our unique soaps. You will not find harsh detergents or petroleum products in them. Because each bar is cut by hand, the weights may vary between 4.5 and 5 oz.

This bar is made with finely ground oatmeal, which serves as gentle exfoliate. A fine gentle cleansing bar with a high olive and vegetable oil content make this a wonderful every day soap. We scented this one with a special blend of fragrances, giving it a mild scent of almond and hint of sweet honey.

\$3.00 per bar

Soothing Lip Balms

We selected oils with the highest moisturizing characteristics, and combined them with 100% pure beeswax, and vitamin E. The result are lip products which gently soothe your chapped lips as you protect them with cocoa butter, sweet almond oil, and the healing properties of Vitamin E.
